Metallic Paint

COLLECTION™

Fifty standard pre-mixed interior/exterior metallic paint colors.

- Water Base
- Interior/Exterior
- Non-Tarnishing
- Brush, Roll, or Spray applied

Standard Pre-Mixed Water Base Metallic Colors

Sheers

Sheer colors are translucent overcoats that give luster to traditional paints, other Metallic Paint colors, or faux finishes.

Extender for Rolling

When added to metallic paint, gives you the ability to “back-roll” the finish before it dries.

- Extends “wet-edge” time to avoid lapping
- Maintains viscosity & shimmer

Protective Clear Topcoat

MasterClear Acrylic/Polyurethane UV Protective Clear Topcoat protects while maintaining shimmer on Metallic Paint Collection colors.

- Interior/Exterior
- Water Resistant
- Abrasion Resistant
- Non-Yellowing

Metallic Paint Collection Color Card

The color card provides you an accurate way to view the full range of metallic colors including our new Matte sheens.

Metallic Paint Roller

Creates a uniform finish and help prevent lap marks.

- Unique, high-quality, European fabric
- Beveled ends help prevent lapping
- Easy to clean; reusable

Metal Effects Primer

A unique acrylic primer designed to prevent rust and tannic acids from the substrate to damage the finish and to block Patina Aging Solutions & Rust Activator from reaching the metal or wood surface.

- Water Base
- Interior/Exterior
- Brush, Roll, or Spray applied

Blue and Green Patina Solutions

Applied over Oxidizing Bronze or Copper Paints to create beautiful patina finishes in minutes.

Rust Activator

Applied over Oxidizing Iron Paint to create the weathered appearance of Rusted Iron finish in minutes.

Permacoat Xtreme

A protective sealer and topcoat used over Rusted Iron finish to protect interior surfaces where there may be contact or exterior surfaces to prevent runoff of the rusted finish caused by rain or sprinklers onto surrounding surfaces.

VENETIAN PLASTER

Venetian Plaster acrylic bases can be tinted using paint store colorant systems. Simply select a color from a paint fan deck to create an elegant polished stone or suede wall finish.

- Water Base • Interior only • Trowel applied

Venetian Plaster Clear Topcoat

This trowel applied clear protective sealer is intended for high traffic areas where washability is imperative or for rooms that experience high humidity.

Venetian Plaster Pearl and Gold Topcoats

These trowel applied topcoats offer the same protection as the clear topcoat while adding a decorative, translucent pearl or gold shimmer to the Venetian Plaster finish.

Japanese Trowels

Produced in the same region as the famous Samurai swords, these trowels are made of 3 mm stainless steel which makes them extremely flexible and yet incredibly strong.

MasterClear[®] Supreme

A low-VOC topcoat designed to protect interior surfaces from abrasion, scuffing, chipping, and household chemicals. Protects exterior surfaces from oxidation, salt-air, chlorine, acid rain, bird droppings and mildew. Added UV blockers and absorbers protect stained wood and most painted surfaces from the graying and fading effects of the sun.

- Water Base
- VOC compliant on all surfaces
- Brush, Roll, or Spray applied

Decorative Painter's

Professional Faux and Decorative Paint Products

Tintable Glaze

This translucent and durable water base glaze has a long “open-time” with optimum viscosity to control sagging on vertical surfaces. The Glaze can be tinted with Universal Colorants or Water Base Colorants. It is ideal for any decorative/faux finish project such as Marbling, Wood-Graining, Exotic Mineral and Bone, as well as any over-glazing technique.

Dead Flat Varnishes

This water base, acrylic, clear finish is the industry standard from which all others are measured. It has been formulated to have the optimum level of clarity with the least amount of sheen. Use to remove undesirable variations in sheen on faux and decorative finishes to maintain that aged effect.

LOW VOC formula is SCAQMD Compliant

Crackle for Latex Paint

This clear, water base medium offers a consistent “weathered”, cracked paint finish that works every time. When applied between two layers of flat latex paint, it will cause the top paint layer to crack revealing glimpses of the base paint color. Use our Metallic Paint Collection colors as a base coat for dramatic, shimmering cracks.

Theme Paint Exterior Dead Flat Varnish

In certain exterior applications where additional weathering protection is desired, use Theme Paint Exterior Dead Flat Varnish, a UV protective clear topcoat, to protect your painted project. This 100% acrylic, water base, protective clear topcoat is formulated with maximum levels of UV Blockers and UV Absorbers to further reduce the effects of harmful ultra-violet rays.

PRODUCTS	ITEM	UPC
Exterior Dead Flat Varnish	TP10454GAL	740774925504

Under visible light each color is distinct and bright, and while under UV blacklight the colors glow brilliantly, without changing color. This palette includes Wildfire's Optical White, the industry's only true "white" under both visible light and UV blacklight.

Invisible Fluorescent Paint

These paints only show their color under UV blacklight. Under visible light these paints appear white, then when UV blacklight is applied they change to a brilliant color. Blue, Red, Orange, Yellow and Green are available. These paints cannot be mixed effectively to create custom colors, but subtle shade differences can be achieved.

Invisible Clear Color

Invisible Clear Color, when applied under normal lighting conditions, over any previously painted surface, appears to be a typical, low sheen, protective clear top coat. But, when UV blacklight is applied Wildfire Invisible Clear Color comes to life with the maximum color brilliance you've come to expect from Wildfire! These paints cannot be mixed effectively to create custom colors, but subtle shade differences can be achieved.
