

Technical Data Sheet

By adding Paint SCENTsations to your paint, you can remove odors and add lasting freshness to the air every time you paint.

Paint Scentsations produces a pleasant subtle scent that lasts for approximately 3-4 months depending on the paint and environmental conditions.

For best results use in both the primer coat and the top coat. During the painting process the scent level will be stronger than after the paint has dried.

Paint Scentsations will not affect paint adhesion, hardness, and overall performance.

Directions: Add contents (1 fl oz) to one (1) gallon of interior paint. Shake or stir thoroughly, then apply as directed by the manufacturer. Make sure all surfaces are clean before painting.

Specifications: The identity of individual components of Paint Scentsations is proprietary information and is regarded to be a trade secret in accordance with the provision of 1919.1200 of Title 29 of the code of Federal Regulations.

Appearance: Water white to straw liquid

Odor: Varies with scent

Flash Point (PMCC): 200F

Specific Gravity: 0.990 – 1.030

Percent Volatile: Not determined

Vapor Pressure: Not determined
