## ADDITIONAL INFORMATION ON CLEANING AND EPA REGISTRATION

- The CDC recommends community members practice routine cleaning of frequently touched surfaces (for example: tables, doorknobs, light switches, handles, desks, toilets, faucets, sinks) with household cleaners that are appropriate for the surface, following label instructions.
- Cleaning does not kill germs, but by removing them, it lowers their numbers and the risk of spreading infection. Many of Rust-Oleum's cleaning products are suited for these purposes. The recommendation can be found here:  
<https://www.cdc.gov/coronavirus/2019-ncov/community/home/cleaning-disinfection.html>
- For verification if a product has been pre-approved by the U.S. Environmental Protection Agency (EPA) for use against emerging viral pathogens they can check EPA's list:
