SURFACE PREPARATION:

WARNING! Removal of old paint by sanding, scraping or other means may generate dust or fumes that contain lead. Exposure to lead dust or fumes may cause brain damage or other adverse health effects, especially in children or pregnant women. Controlling exposure to lead or other hazardous substances requires the use of proper protective equipment, such as a properly fitted respirator (NIOSH approved) and proper containment and cleanup. For more information, call the National Lead Information Center at **1-800-424-LEAD** (in US) or contact your local health authority.

**Product Data Sheet
MINWAX® Premium Design Series
Wood Effects**

Wood must be dry and cleaned of dirt, grease, wax, polish and marks. Old finishes in poor condition should be completely removed and the surface treated as a new surface. Recognize that any surface preparation short of total removal of the old coating may compromise the service length of the system.

For best results, start with a medium grit sandpaper, and increase the grit as you go, finishing with 220 grit paper as final sand. Remove sanding dust with a vacuum or tack cloth.

Do not use steel wool for abrading when using Minwax Premium Design Series Wood Effects. Since steel wool and water can cause rust, steel wool should be avoided around all water- based wood finishing products.

Protect surrounding items with drop cloths, masking tape, etc.

APPLICATION:

Be sure the temperature is above 50°F, and the humidity is below 85%.

Test before applying on a hidden spot to make sure you like the effect.

Product reacts differently with every piece of wood. Preferred wood species: Oak

Stir product well before and occasionally during application. Do not shake or thin product.

Brush	Use a synthetic or foam brush. Brush out evenly in direction of the grain. <u>No wiping required.</u>
--------------	---

Apply in the direction of the grain. No wiping required.

After applying Premium Design Series Wood Effects, let dry for 30-60 minutes.

For a rustic look that will continue to patina with time, topcoat not recommended. For increased durability and protection while maintaining a rustic look, use Minwax Polycrylic in Ultra Flat sheen.

CLEANUP INFORMATION:

Clean spills, spatters, hands and tools immediately after use with soap and warm water.

CAUTIONS:

For interior use only.

Not for use on commercial floors.

Not for use on surfaces continuously wet or under water.

Before using carefully read CAUTIONS on label.
