

FLASHING-GRADE ROOF SEALANT — PROVEN SINCE 1977

H.E.R. a flashing grade, self-conforming polyurethane roof sealant used to create a tough, seamless membrane on a wide variety of substrates including asphalt, single ply, metal, and most existing coatings. It is a one-step application which reduces labor time and eliminates the cost of additional products such as primers, tapes, and top coats.

One Step Application

Reducing labor time and eliminating the cost of additional products.

Flashing Grade

No fabric reinforcement required.

UV Stable

Does not require a top coat. H.E.R. will not chalk, crack or peel.
