

MARK[®] HP XT[™]

BREAKTHROUGH ELECTRIC HIGH-PRESSURE PERFORMANCE

The next evolution in high-pressure electric spraying—powered by XT Motor and AMPLIFI[™] Technology for gas-like performance from any standard outlet (120V or 230V). Atomizes 100% solids, silicone, vapor barriers and demanding protective coatings with quiet and compact, electric convenience—without compromise.

EXTREME PRESSURE FROM ANY OUTLET

Delivers up to 6750 psi from standard 120V or 230V power.

LOWER COST OF OWNERSHIP

Eliminates fuel and engine maintenance—saving \$1,000's per year.

QUIET, COMPACT, EASY TO MOVE

Up to 25% lighter than the nearest gas sprayer for easier one-person transport and indoor/occupied work.

BUILT FOR HARD-TO-ATOMIZE COATINGS

Sprays 100% solids, silicone roof coatings, epoxy, vapor barriers, intumescent, and protective coatings.

10 GRACO
YEARS

ELECTRIC POWER. HIGH-PRESSURE PERFORMANCE. BUILT FOR THE TOUGHEST COATINGS.

**BUILT FOR HIGH-PRESSURE
COATING WORK—ENGINEERED
TO KEEP CREWS MOVING.**

XT MOTOR POWER – GAS-LIKE PERFORMANCE FROM ANY OUTLET

- High-torque, low-RPM design delivers consistent output under load
- Runs on 120V or 230V with dual-voltage flexibility
- Quiet operation opens more jobsites and more hours

AMPLIFI TECHNOLOGY – MORE POWER, MORE PRODUCTIVITY

- Up to 50% more usable power from the same outlet
- Selectable amperage helps prevent nuisance tripping on common breakers

ENDURANCE™ PUMP WITH PROCONNECT™— BUILT FOR UPTIME

- Direct-immersion Endurance Pump designed for 100% solids, epoxy, vapor barrier, intumescent, and other hard-to-atomize coatings
- ProConnect lets crews swap the lower in minutes to minimize downtime and avoid missed deadlines

RAPID RESPONSE CONTROL AND DIGITAL DISPLAY— PRECISION UNDER PRESSURE

- Fast, accurate pressure adjustments
- Consistent atomization across demanding materials

TURBOCLEAN FLUSH AND WATCHDOG™ PROTECTION – CLEAN FAST AND PROTECT YOUR INVESTMENT

- Clean 3x faster using less fluid—get back to spraying sooner
- WatchDog automatically shuts down to help prevent costly damage

Model	Part No.
Mark HP XT Complete	18H410
Mark HP XT Big 150	18H411
Mark HP XT Big 150 w/ 25 Gallon Hopper	2015642

PSI	6750 PSI (465 bar)
GPM	1.5 GPM (5.71 lpm)
Maximum Tip Size	0.041"
Voltage Range	120V/230V Flex Voltage
Supported Materials	100% solids coatings, epoxy, silicone, vapor barriers, polyurethane and more
