ABOUT US

At **Work Tools Applicators Co.**, we believe in creating high-quality precision painting tools and accessories that help you work smarter, not harder. Professionals and do-it-yourselfers alike will find the ideal tools and accessories for every coating and substrate to cover the complete job.

Our story began in 1988 in a small garage, led by founder, Tom Typrowicz. Decades later, the WHIZZ® brand has become a household name, available at retailers across all 50 states.

In 2015, Work Tools Applicators Co. proudly acquired Elder & Jenks, one of America’s oldest paintbrush manufacturers. With over 200 years of heritage, E&J continues to produce brushes the traditional way—using mechanical scales, wooden pushers, and metal combs—while also offering premium roller covers.

At the core of our business is integrity—whether it’s collaborating closely with vendors and partners or supporting our distributors and customers. Our commitment to innovation drives our Research and Development efforts, allowing us to create tools tailored to the needs of today’s painters, from DIYers to professionals.

WHIZZ® and E&J® remain trusted brands for painters everywhere.

CONTENTS

BRUSHES	3–4

ABOUT US

Elder & Jenks® is renowned for its handcrafted brushes, featuring premium bristles, wooden handles, and exceptional artisan quality. E&J brushes have become a trusted choice for painters across homes, industries, and the fine arts.

In 2015, Work Tools Applicators Co. proudly acquired Elder & Jenks, one of America's oldest paintbrush manufacturers. With over 200 years of heritage, E&J continues to produce brushes the traditional way—using mechanical scales, wooden pushers, and metal combs—while also offering premium roller covers.

At the core of our business is integrity—whether it's collaborating closely with vendors and partners or supporting our distributors and customers. Our commitment to innovation drives our Research and Development efforts, allowing us to create tools tailored to the needs of today's painters, from DIYers to professionals.

WHIZZ® and E&J® remain trusted brands for painters everywhere.
